

## “Sit and Listen” by Frank Riley

Danny Riley’s father Frank Riley has written a book about Danny’s experiences living with brain cancer. ***Sit and Listen: Reflections of a Father and Son*** combine Frank’s storytelling with Danny’s own thoughts, poems and words. The book is now available [here](#) on [Amazon.com](https://www.amazon.com). All proceeds go to the [Danny Riley Celebration of Life Fund](#).

The book relates how Danny lived with brain cancer for almost three years. His father uses Danny’s words and his own reflections to share a compelling tale about music, family, and vigilant caregiving that supported a brave young man on a very difficult journey. While it embraces a tragedy, the story is full of love, joy, and peace, generated by Danny’s own positive spirit. It contains a message of hope for a cure for all those who continue to face this life-threatening disease, especially children and young adults.
